Personal interests

Hobby

My interests are mainly related to sports, culture and travel. In particular playing football, running, climbing and playing video games; listening to music, reading, watching movies and TV series; travelling, exploring new places and discovering different cultures.

Soft skills

Good team work and time management skills, acquired above all in carrying out university projects. Excellent organization, logical and critical thinking skills, acquired above all thanks to university courses in the IT field.

Matteo Cusini

UX/UI designer, computer scientist
